Get answers to your questions on video, anywhere, anytime.
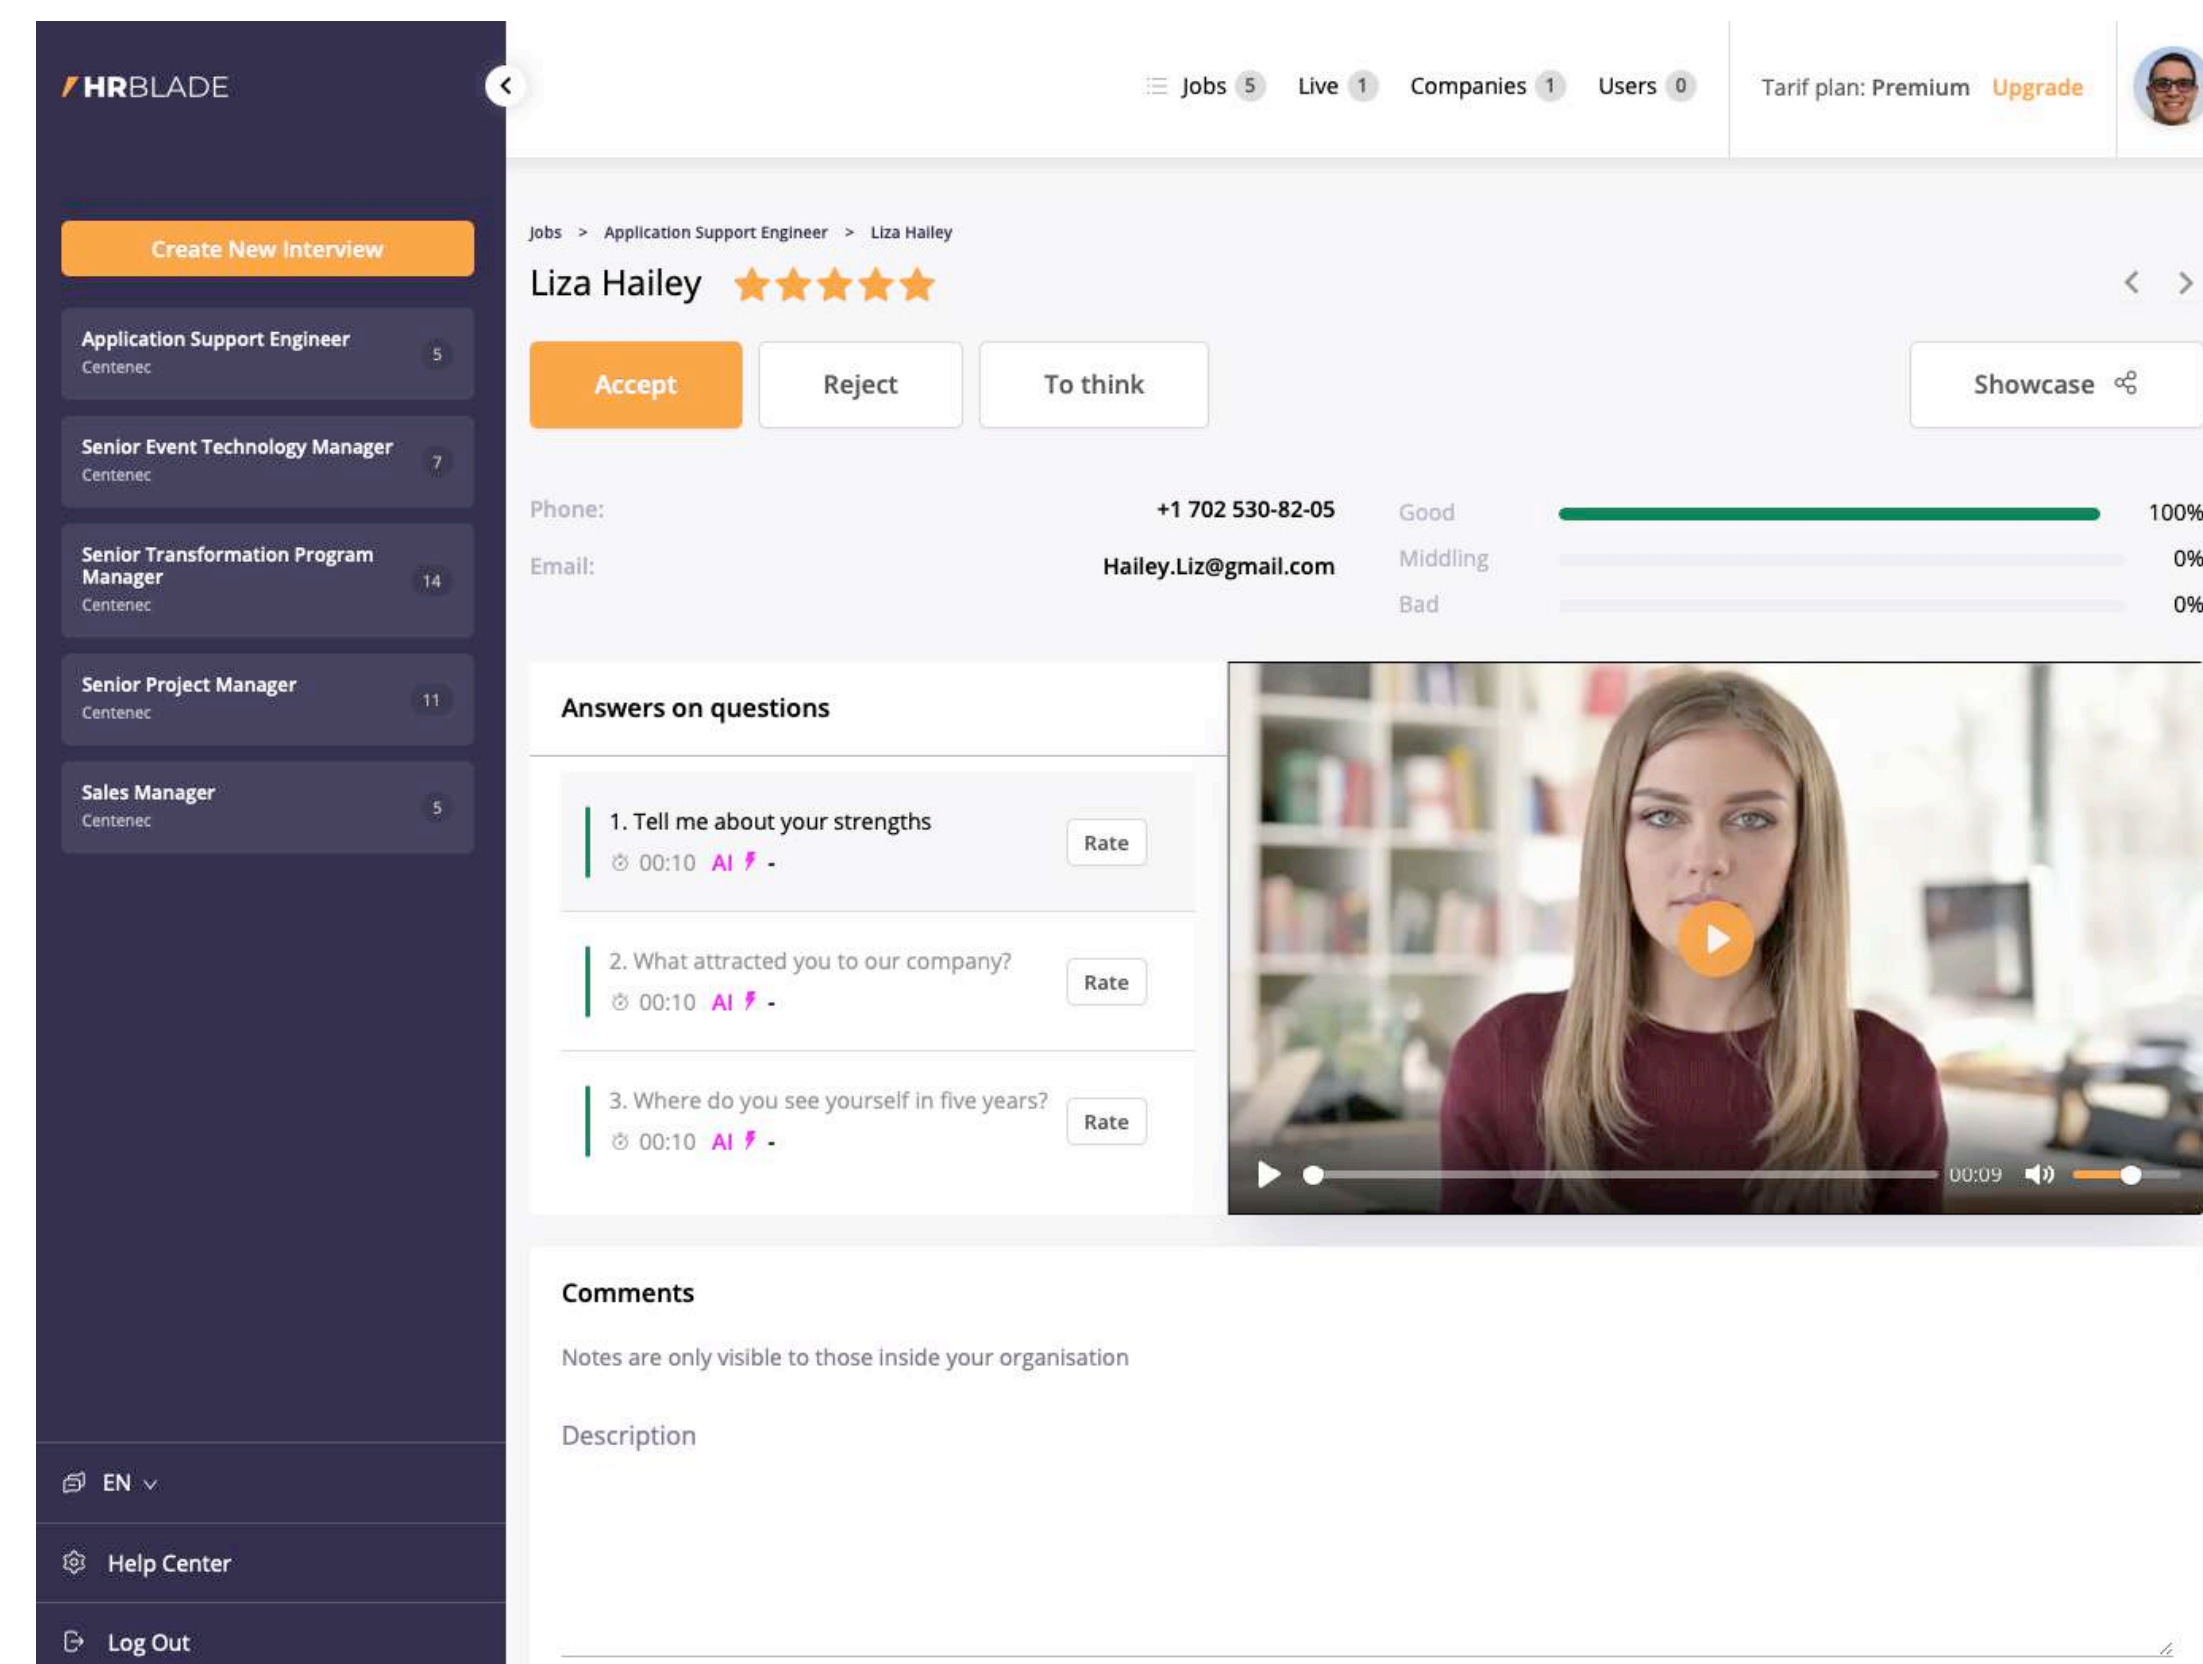

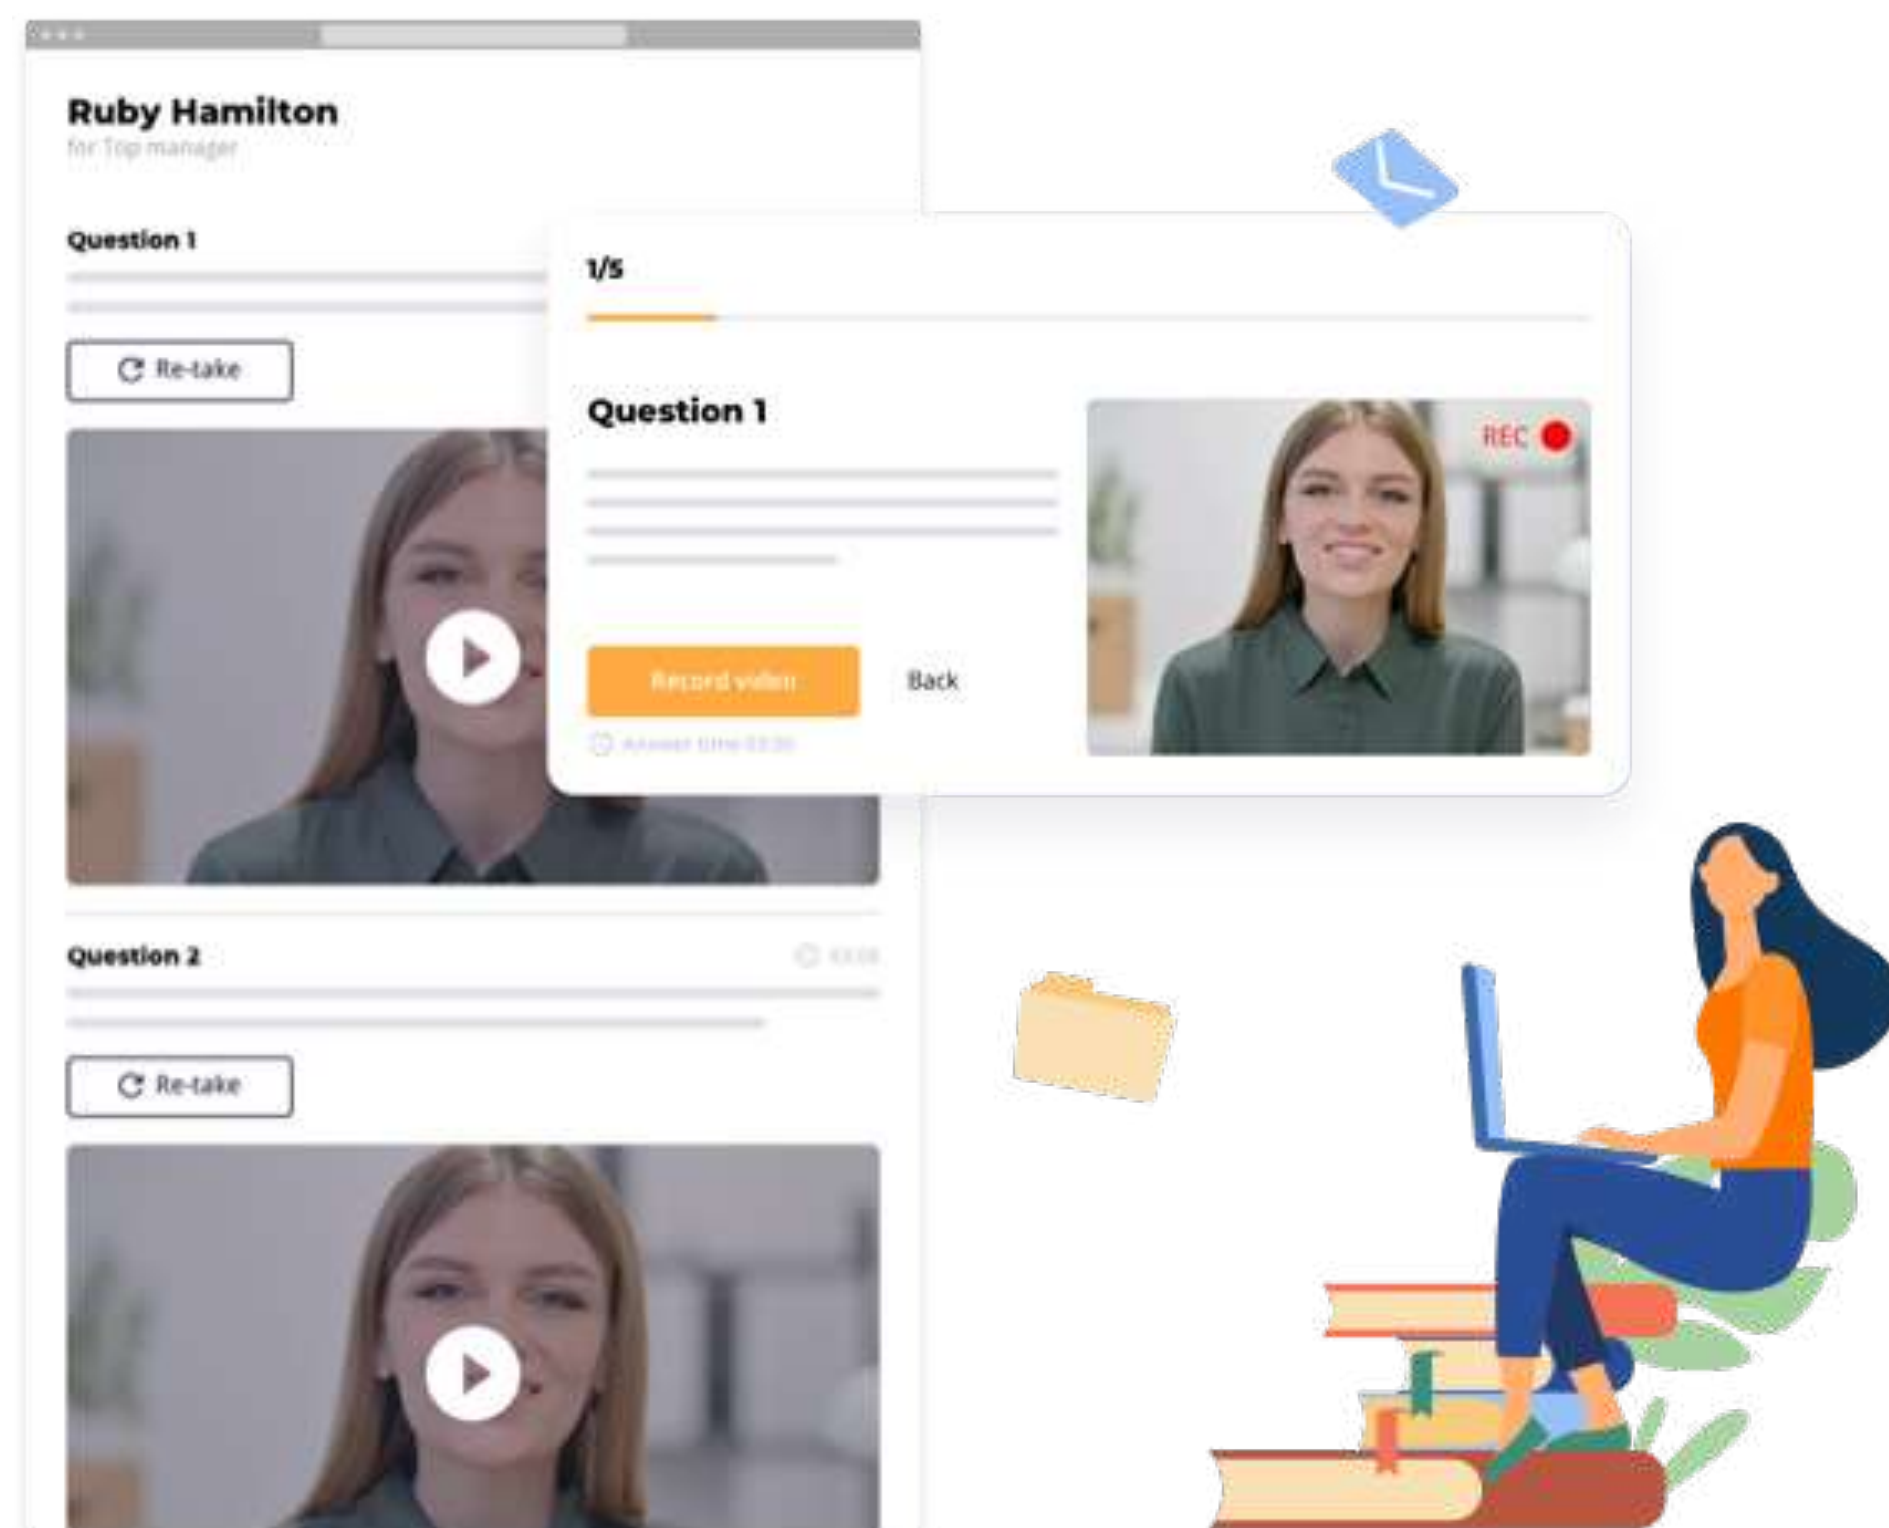

Make the best hire

Collaborate with colleagues, automate processes, evaluate, hire faster.

Hire faster

Recruiting is an expensive process that takes a lot of time and efforts

Video interviewing with candidate pipelines save time, money, and efforts on recruiting
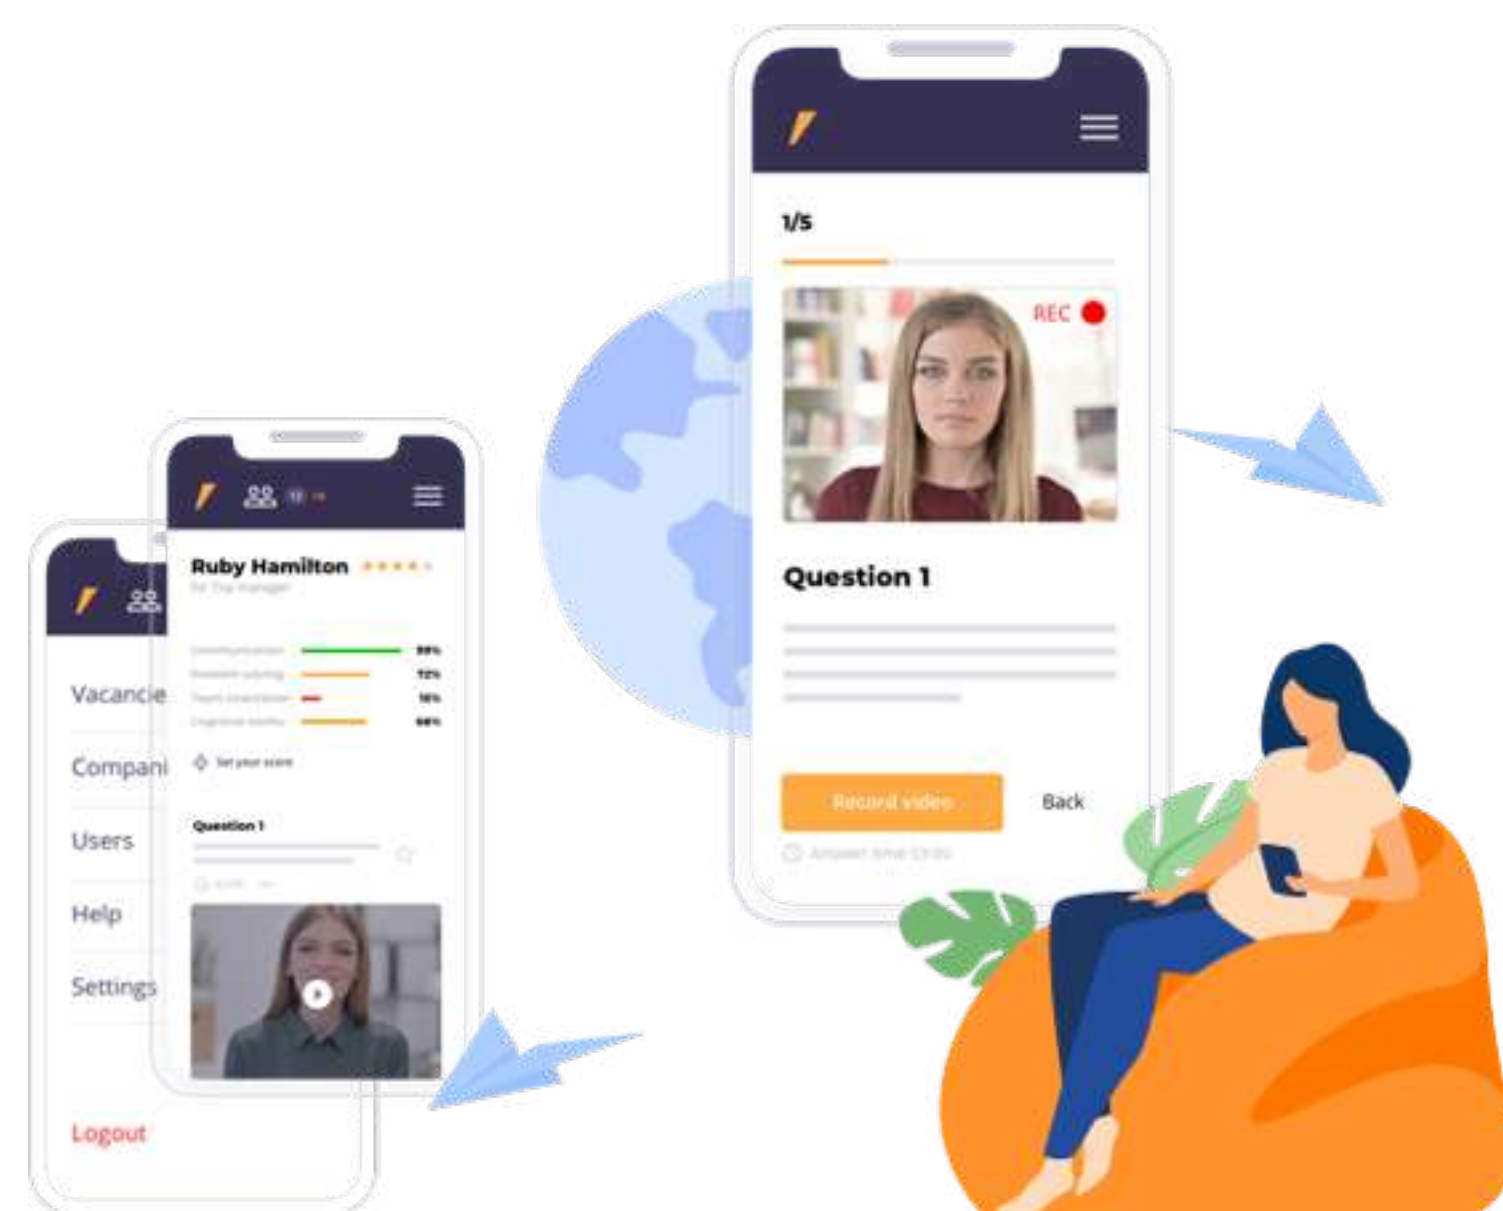

Hire remotely

With remote work opportunities exploding in number and scope, companies looking to widen their talent pool are facing challenges of a remote hiring process.

On-demand video interviews, live video interviews, and candidate testing solutions make recruiting online
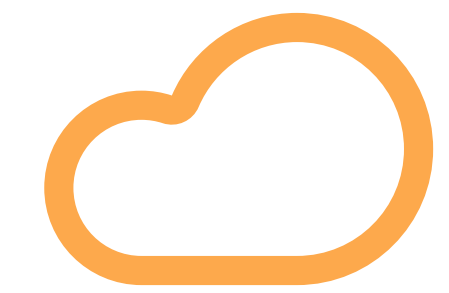

Attracting the suitable candidates

To discover the right candidate in a pool full of unqualified talent, options are limited.

Functional careers page builder and application form builder, job search sites integrations allow attracting the right candidates
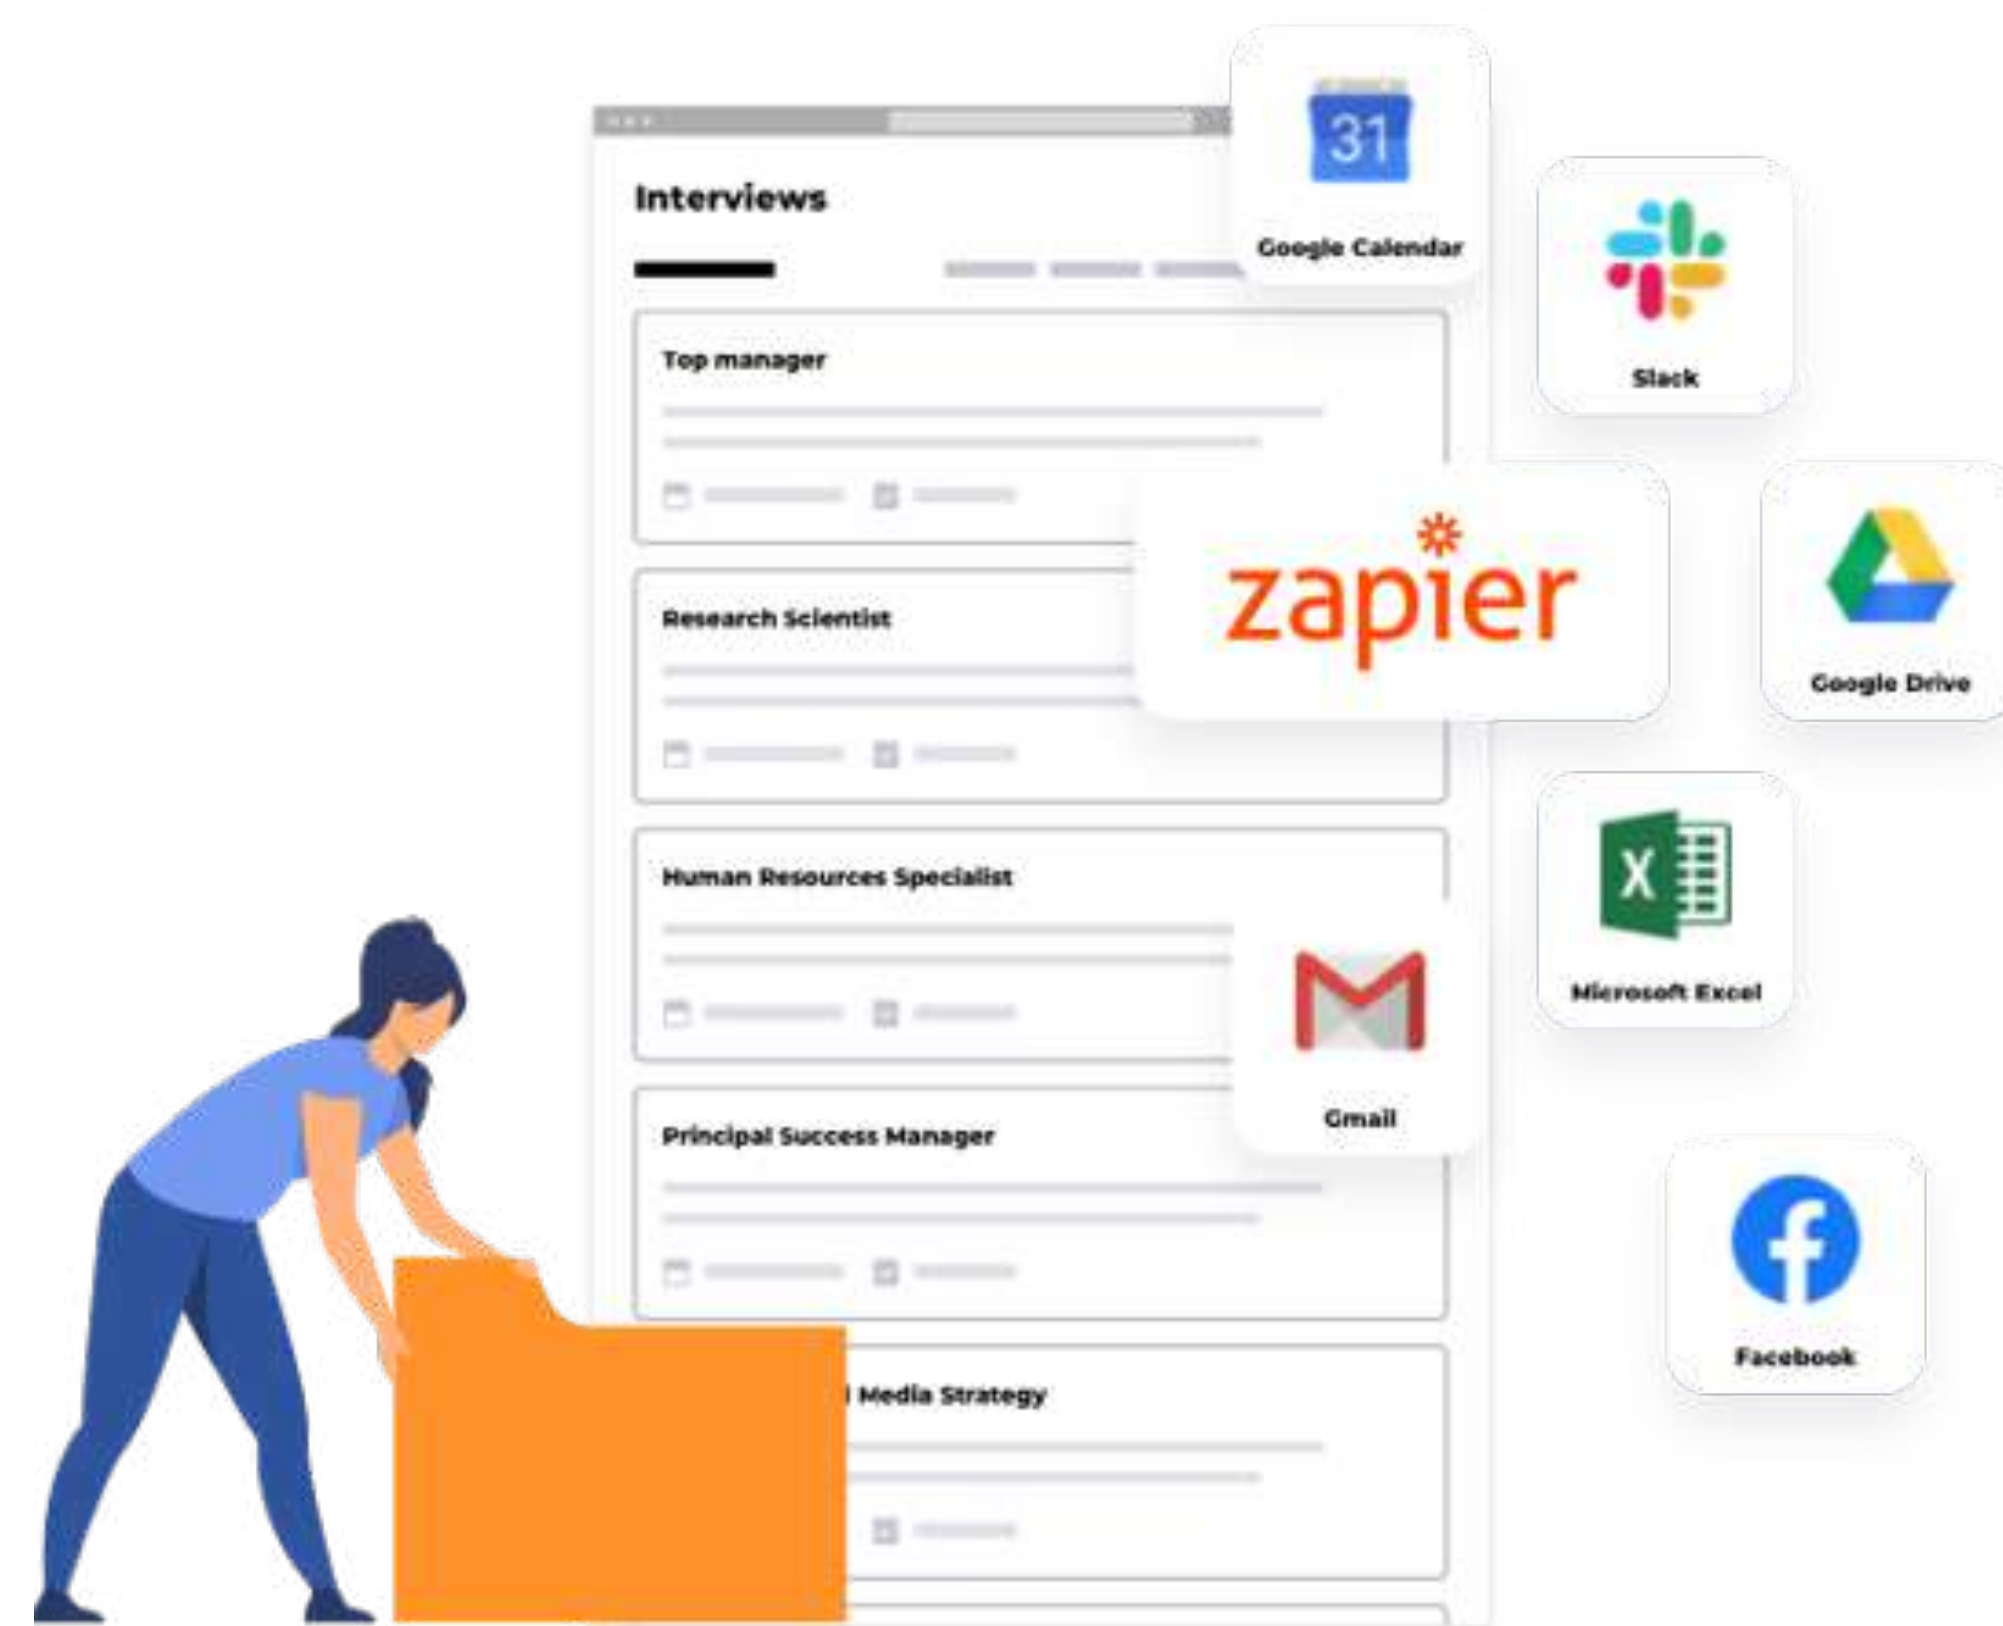

Using data-driven recruitment

Collecting and processing data in classic recruitment usually can be a hassle

Integrations, API, analytics and reports make recruiting data-driven and integrated
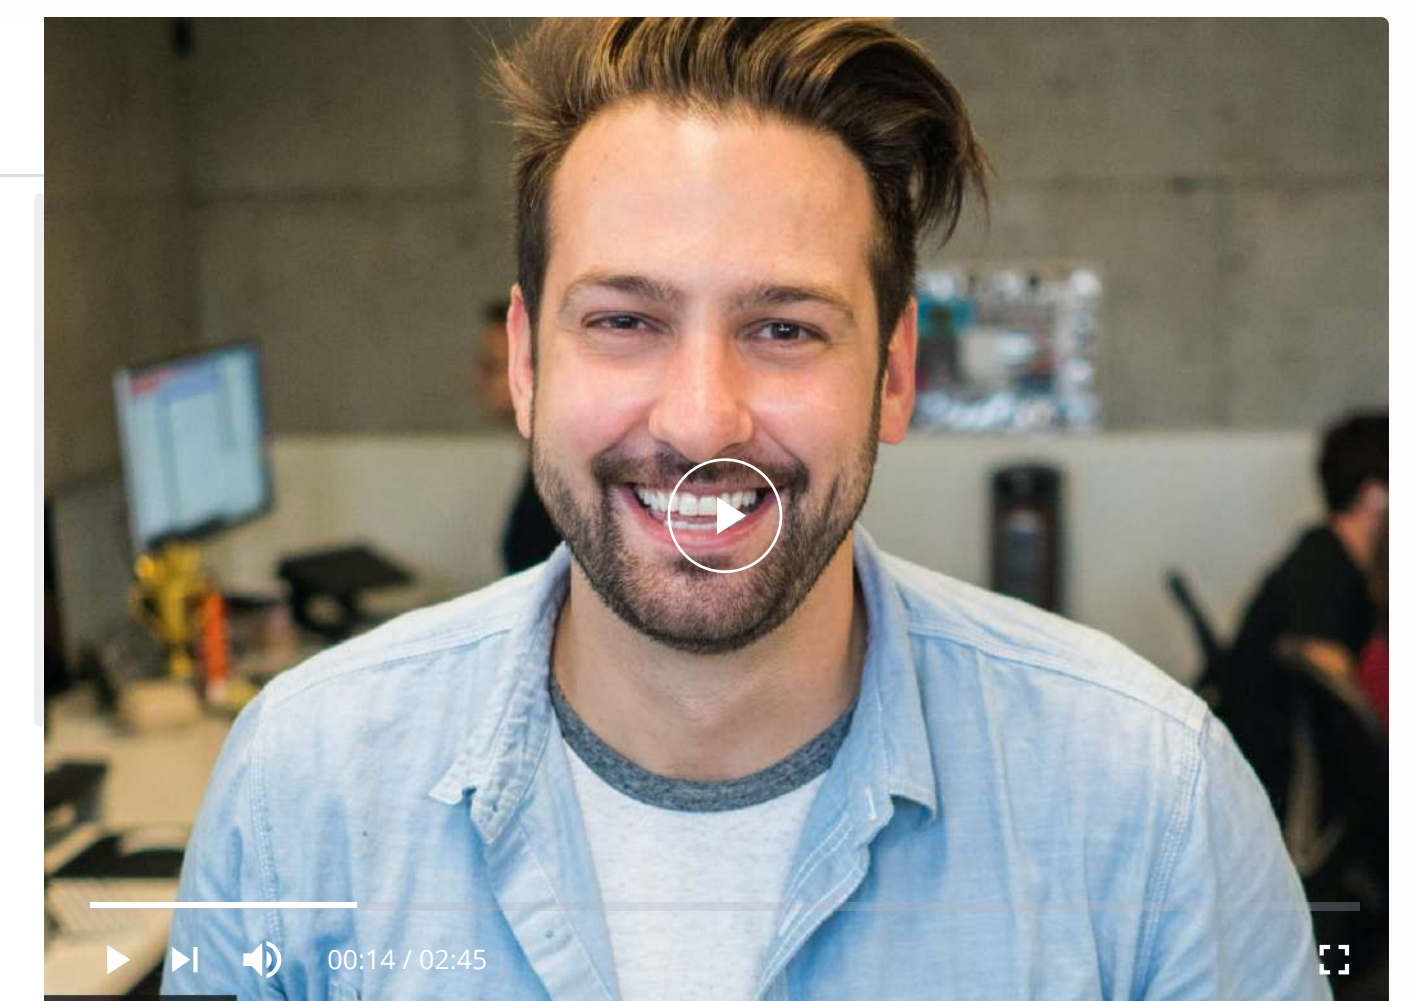

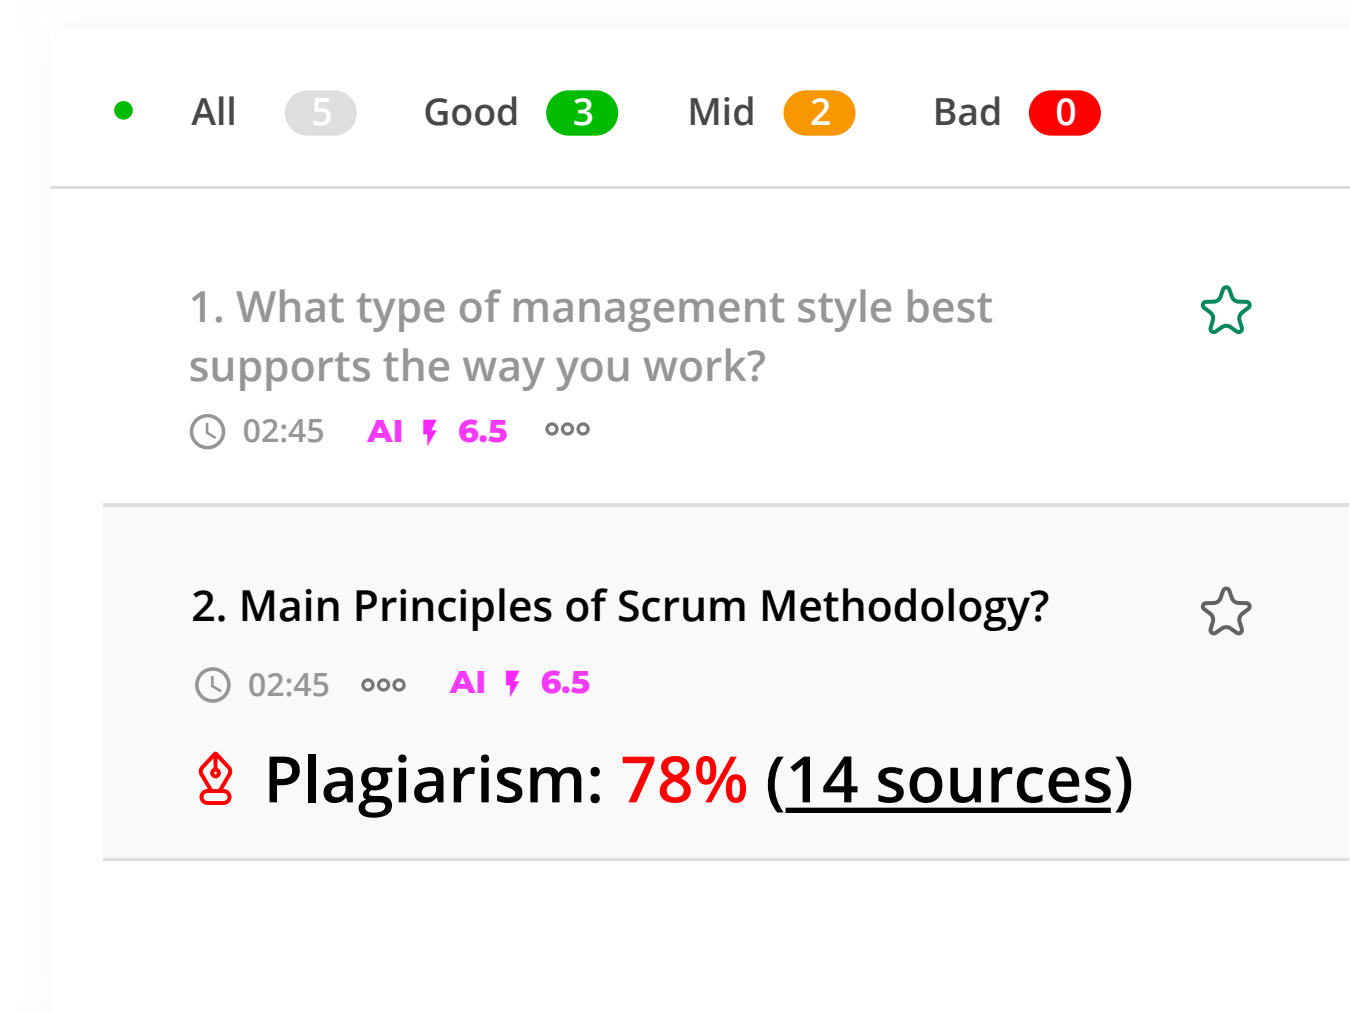

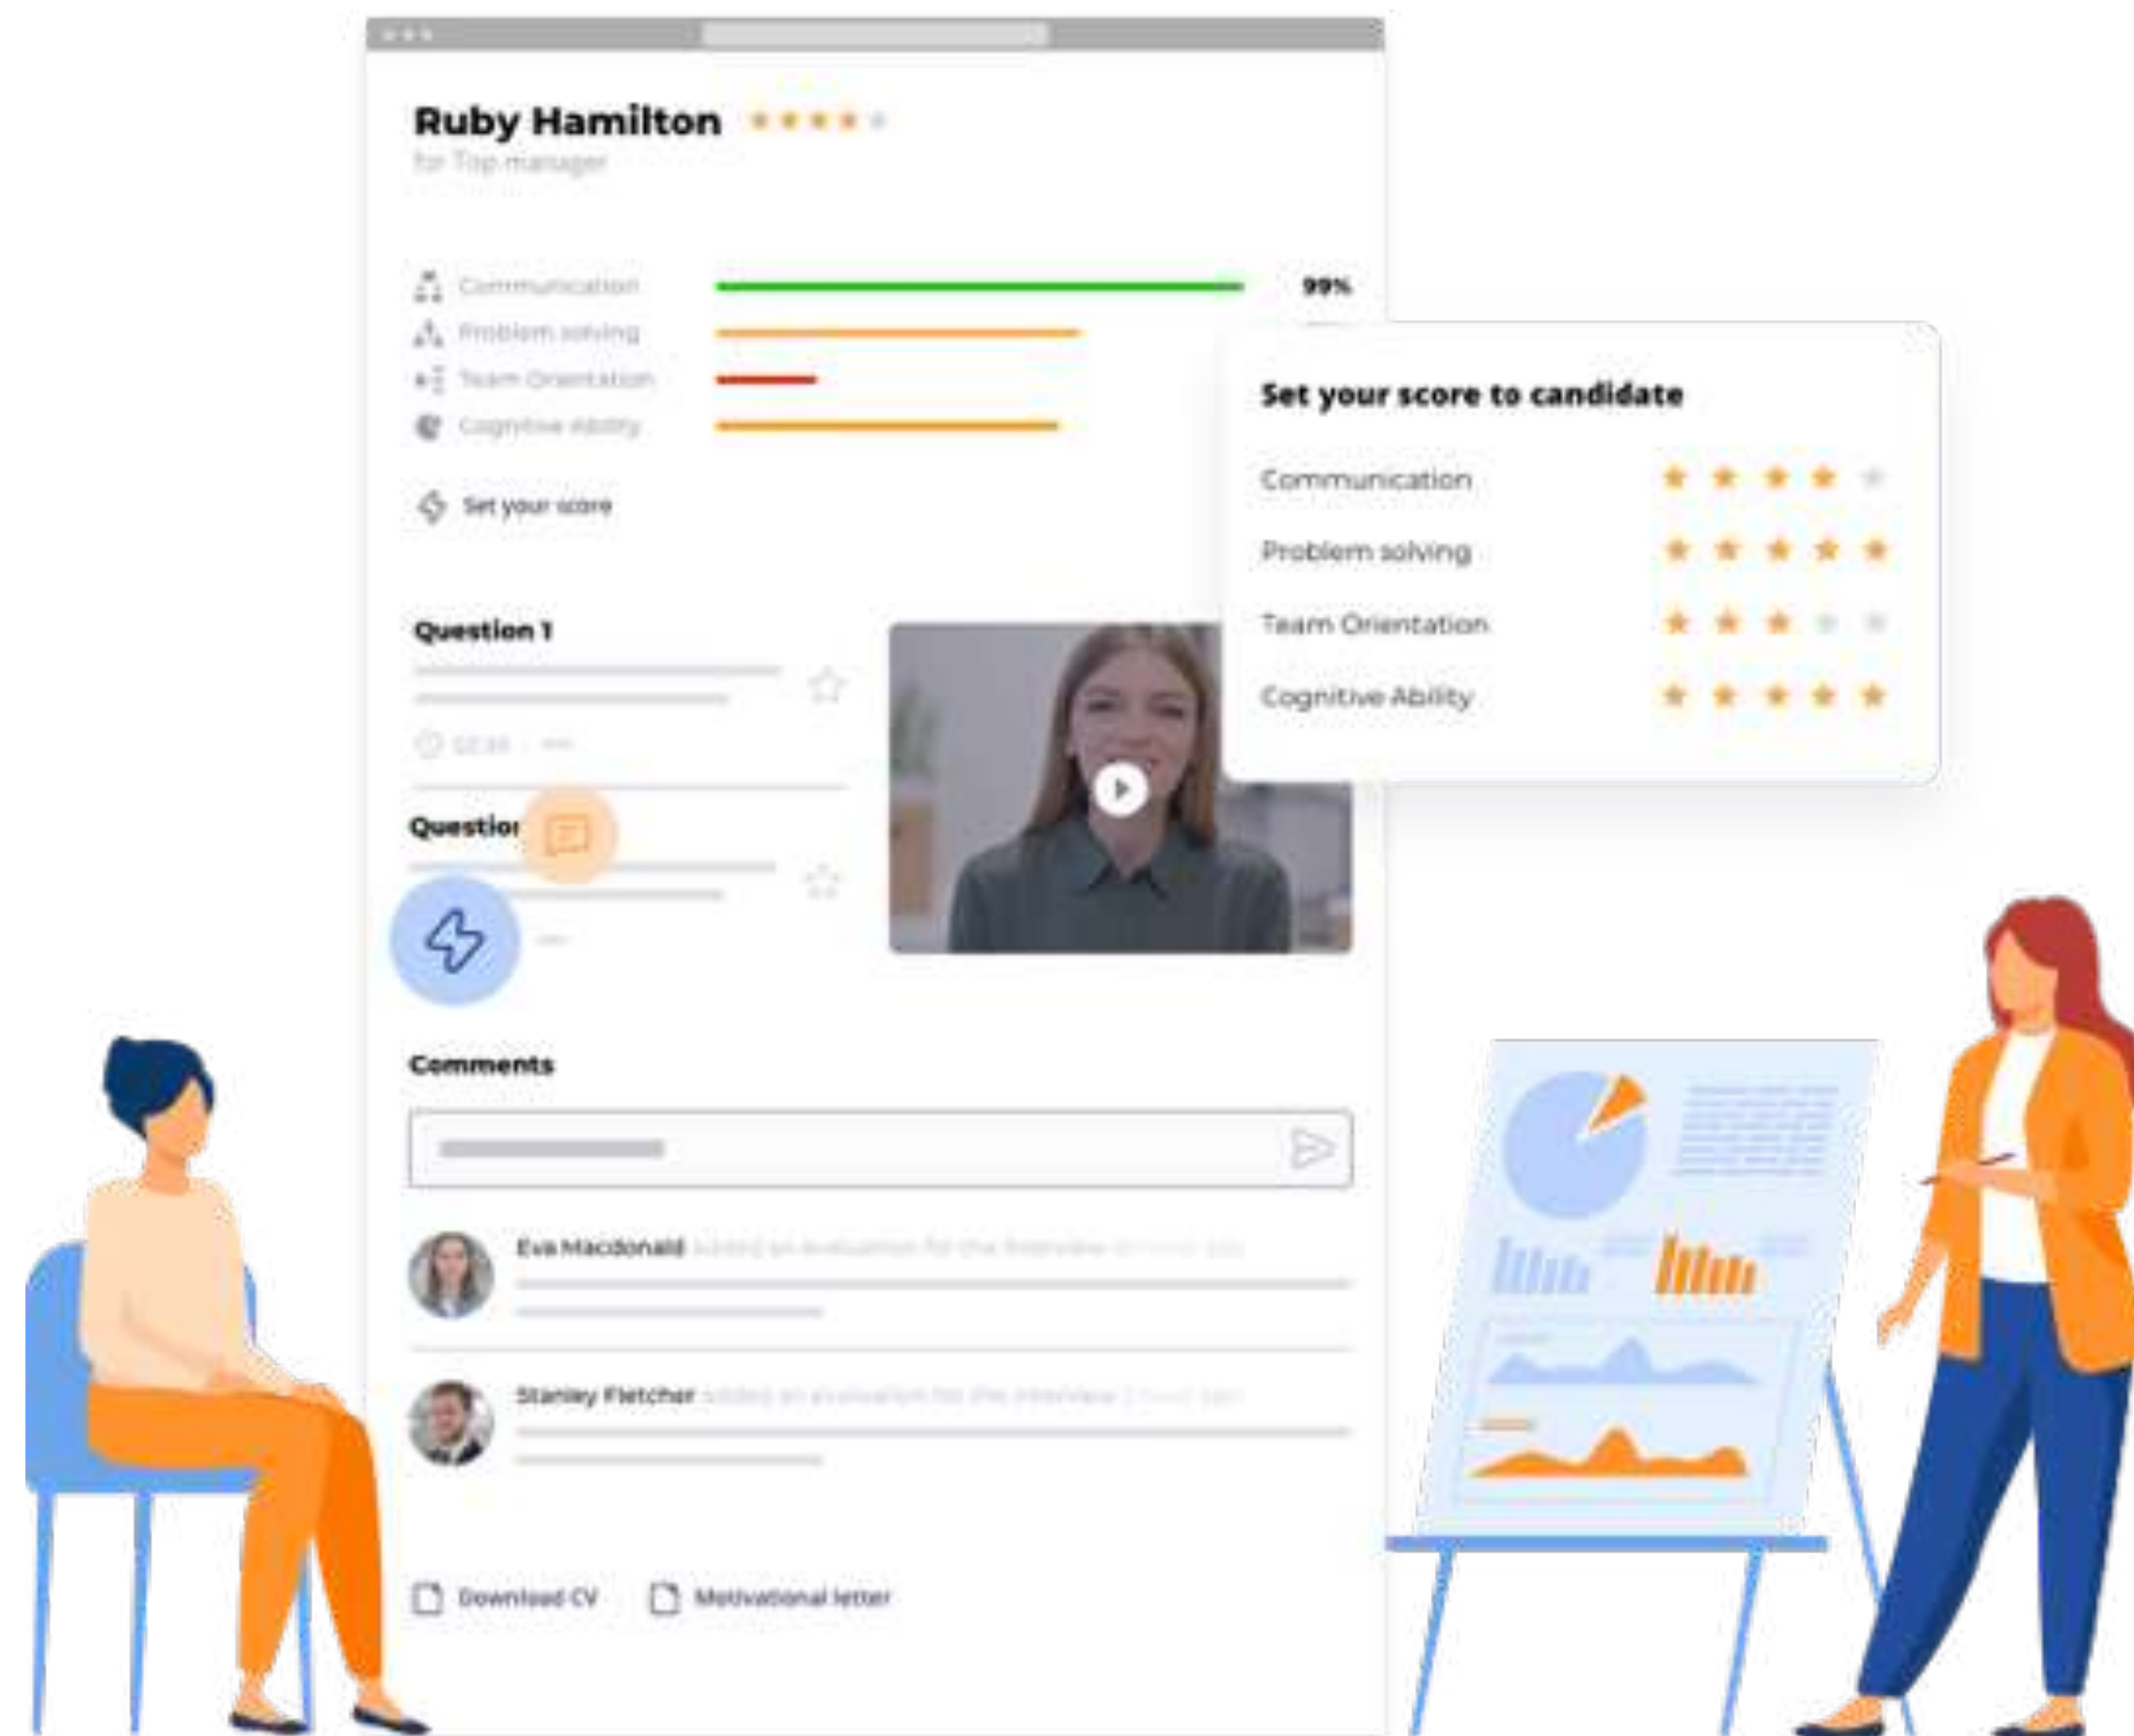

1. Nocode Integrations with more than 3,000 apps via Zapier

2. Open well documented API to custom integrations

3. Data export

Recruiting fairly

Many companies struggle to attract and hire diverse candidates and unconscious biases are often the reason.

Structured interviews, evaluation system, and plagiarism checker make recruiting fairly
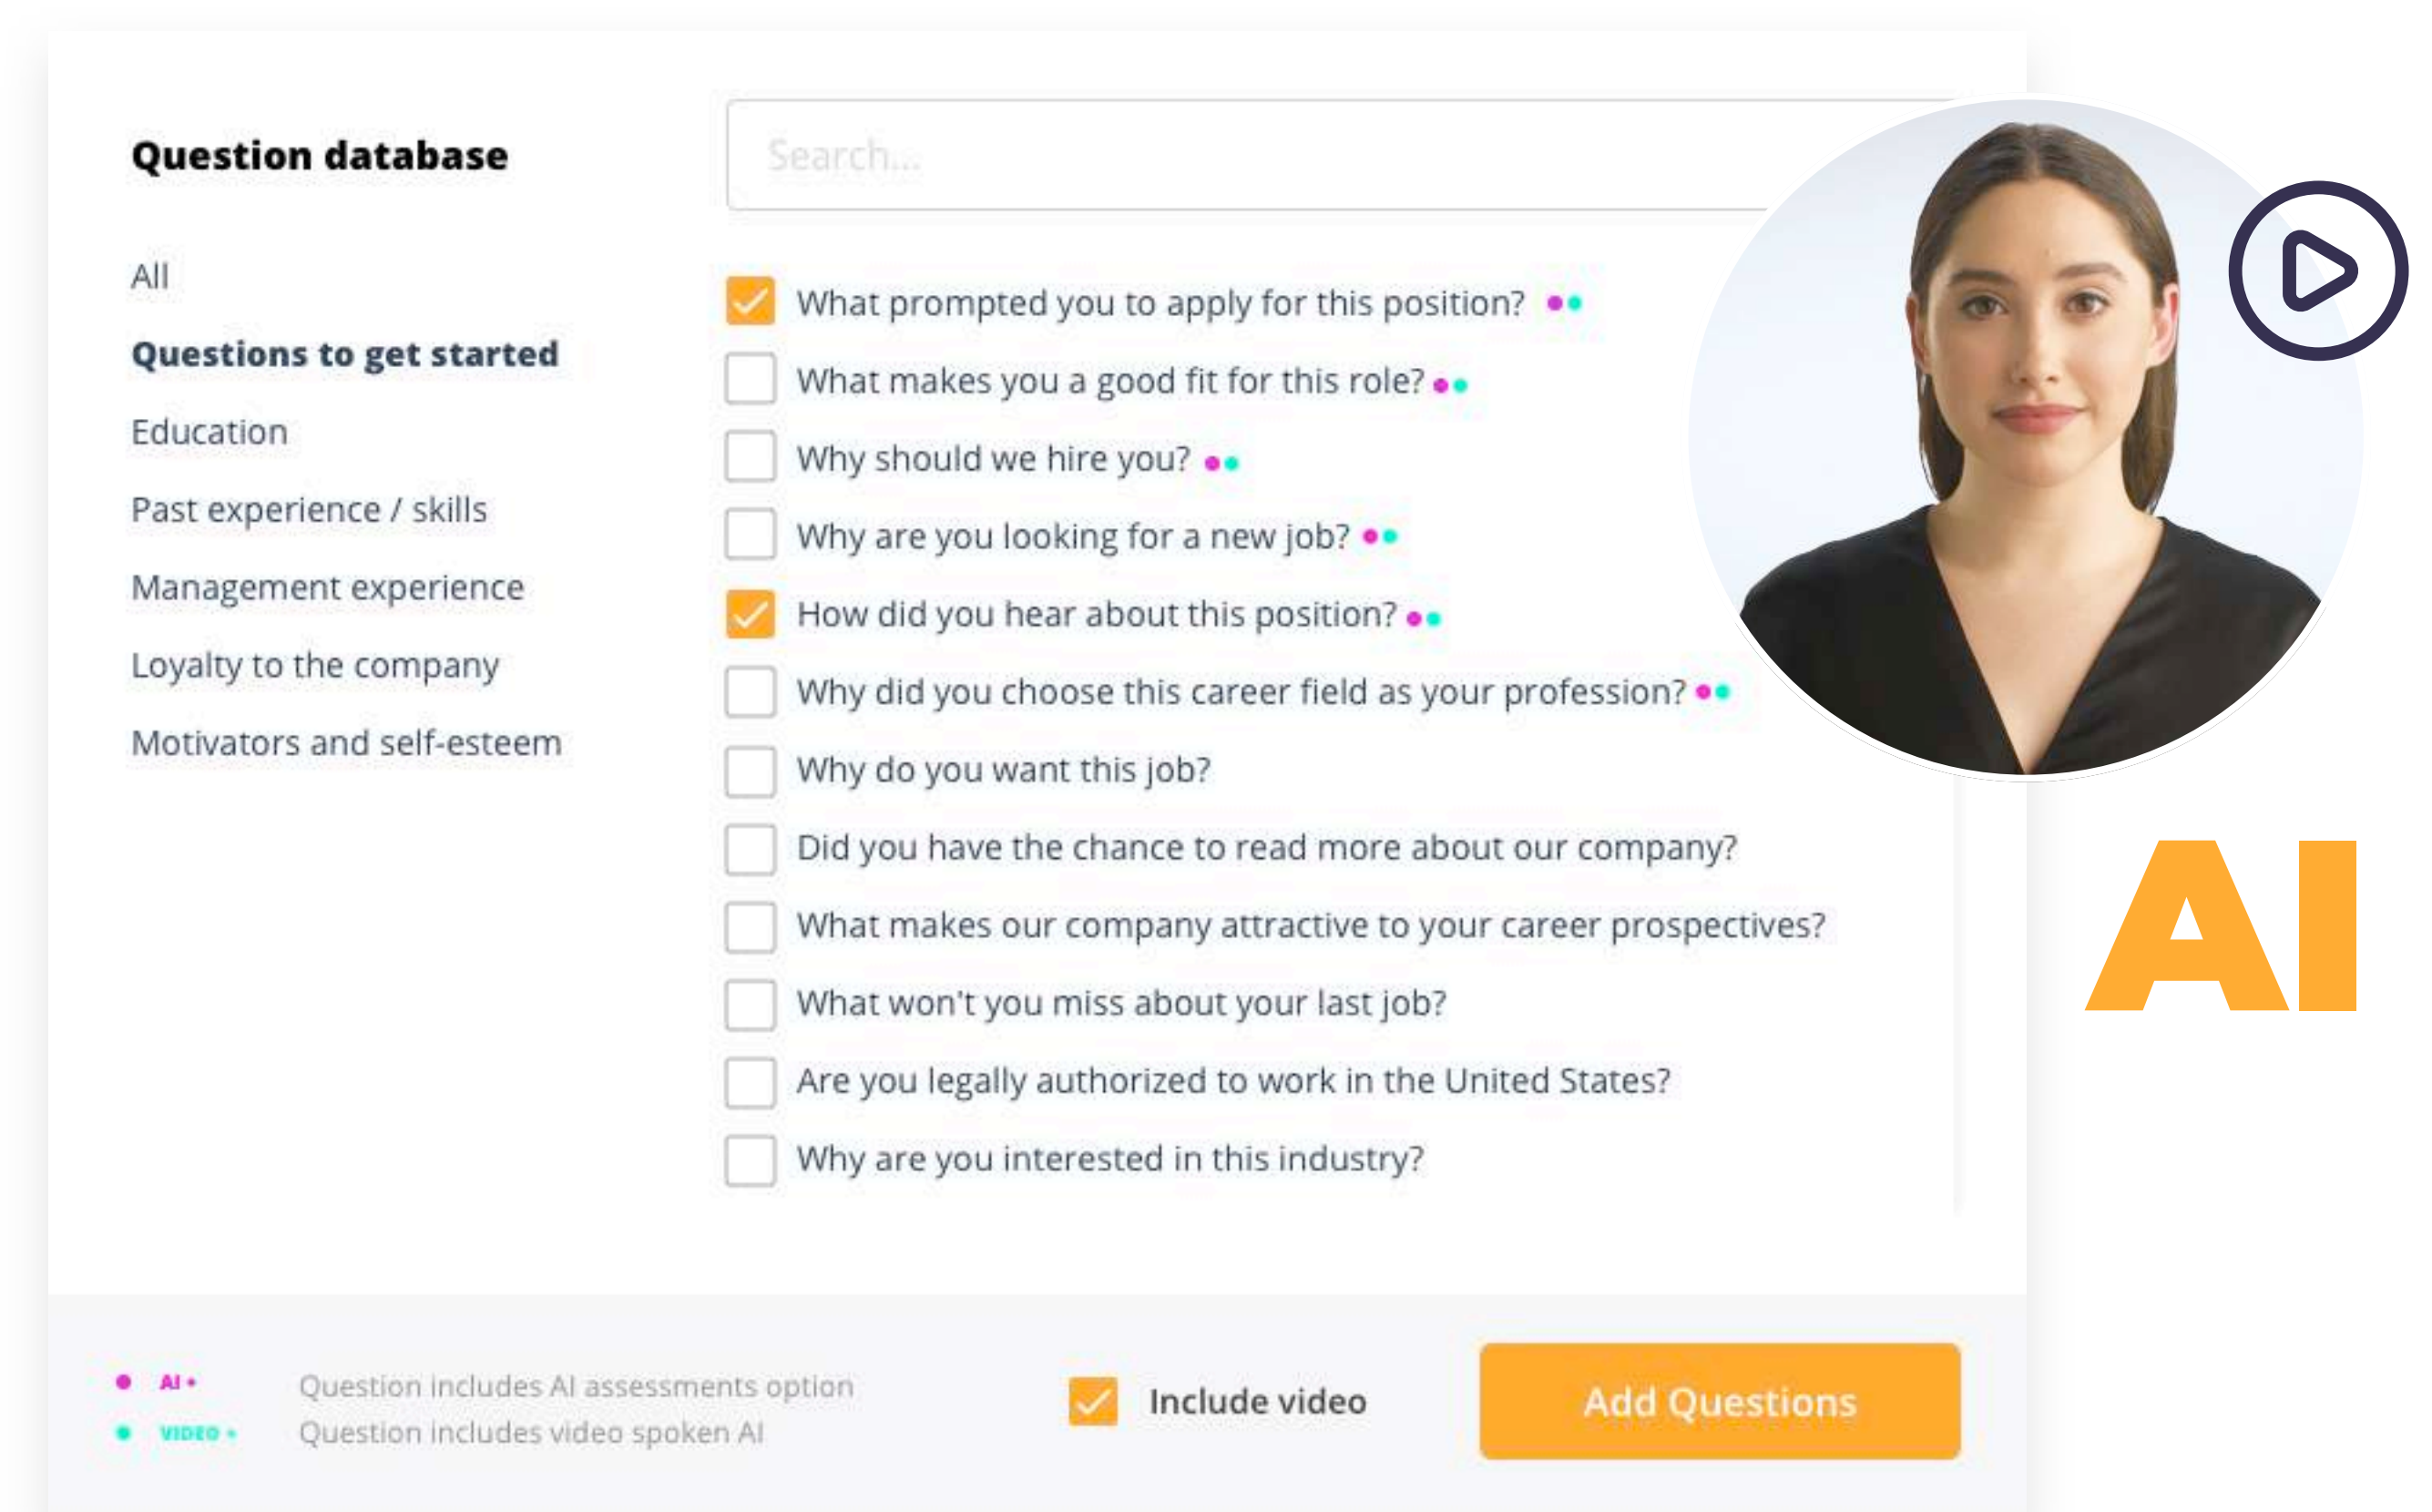

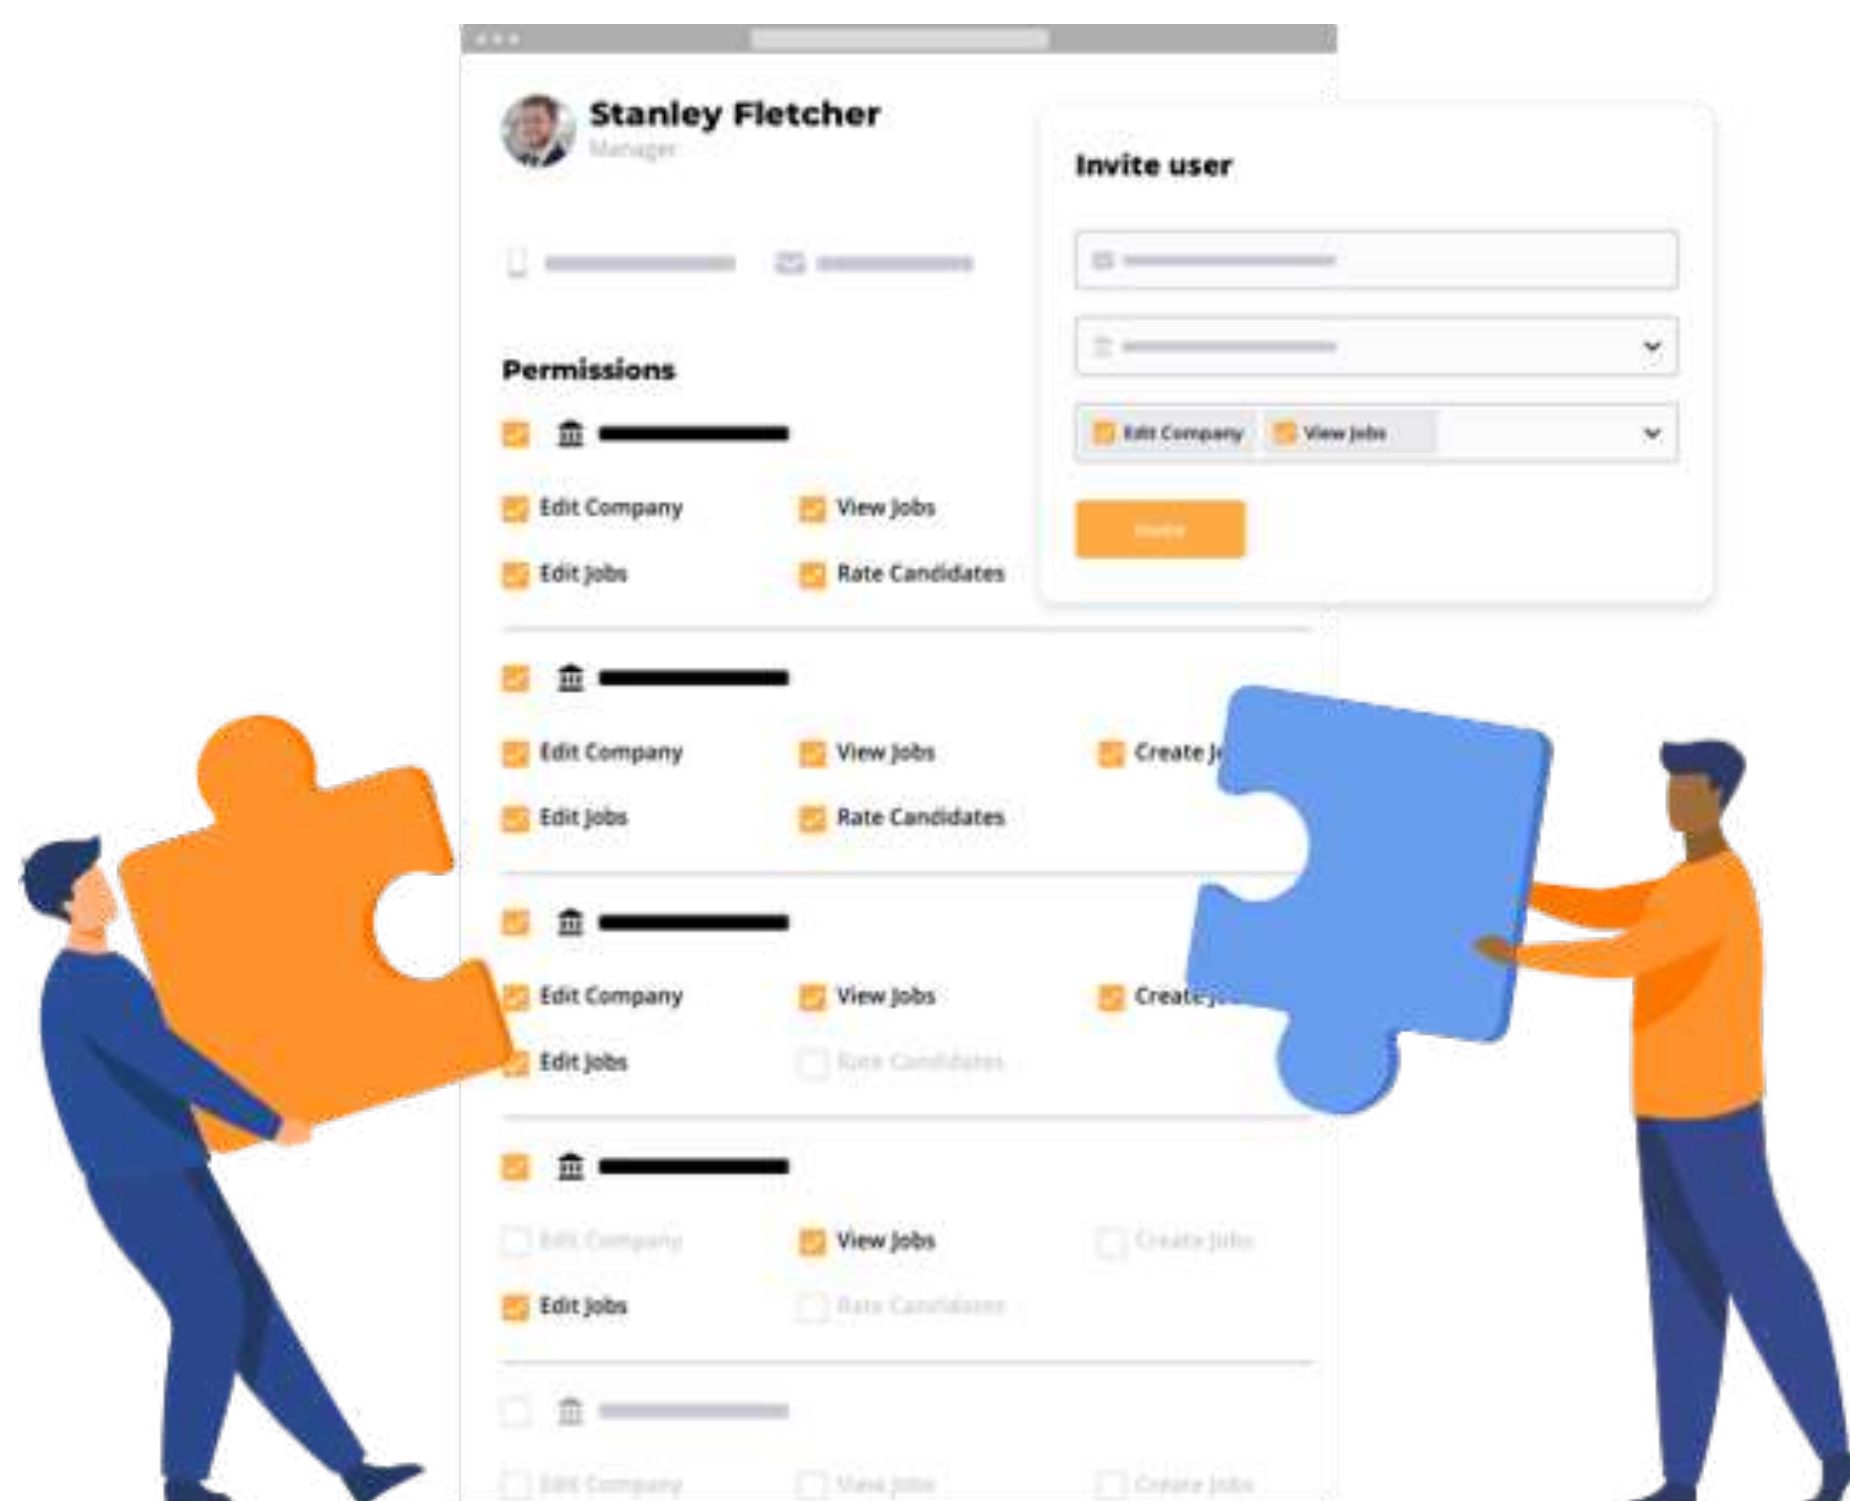

Creating an efficient recruiting process

Hiring teams need to communicate fast, evaluate candidates easily and know what's going on every step of the way

Collaboration recruiting tools, templates, and AI-assistant, virtual recruiter, make recruiting process efficient
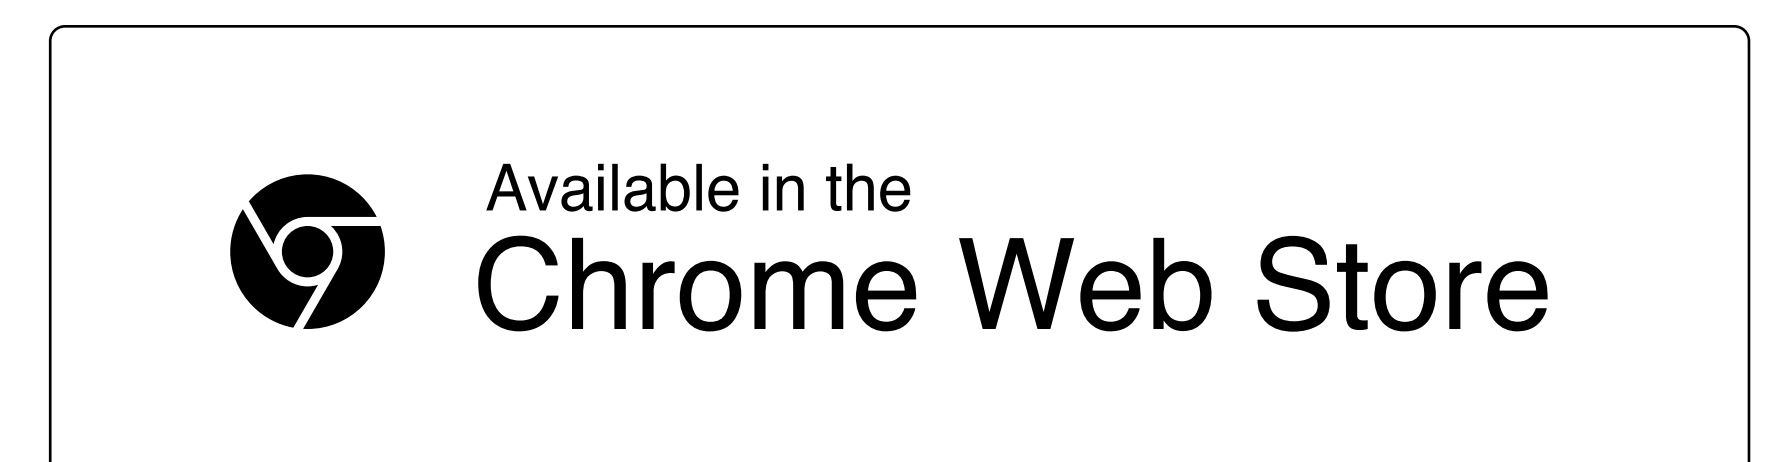

Multilanguage platform

You can use our platform to attract candidates all over the world on any language. Interface of admin area available in English, Spanish, Russian, German and Italian languages.
